Strategies to arrange markets

Markets around the world are using different layouts to ensure social distancing. Here are a few examples -

1. Zig-Zag layout
2. Open grid layout
3. Closed grid layout

Dimensions to follow

A distance of 6 feet should be maintained between the vending carts and minimum 3 feet between the customers.

Simple Tips for social distancing

1. Paint can be used to demarcate circles where customers stand
2. Social distancing signs can also be spray painted on walls to create awareness
3. Paper & cardboard can be used to make flyers, posters and placards for public awareness
4. Announcements can be made for public awareness
5. Foot operated D-I-Y sanitization and wash stations can be made using PVC pipes cut to size
6. Ropes can be used to create barriers between customers and vendors, and also to guide customers’ flow

STRATEGIES TO CREATE DISTANCE OR BARRIER BETWEEN CUSTOMERS & VENDORS

1. Create a barrier with rope or bamboo
2. Create a screen in the middle using a plastic sheet
3. Create distance using milk or egg crates
